

stainless steel wire
0.7mm diameter

Structure

7 branches wire

[]Stainless steel: diameter 0.7mm

Material

[]Stainless steel: 304

[]non-magnetic .

[]It is 500 meters each kilogram

Package

[] 150 meters each roll.

[] 500 meters each roll.

[] 1000 meters each roll.

[] 5000 meters each roll.

we can pack it according to the client's demand

Tensile strength

We tested the single wire in general weather,
the tensile strength is more than 50kgs .

The wire is suitable to the following
meter seals and so on.
