

PVC (not flammable)
0.1mm thickness
stainless steel wire
0.5mm diameter

1x7 structure

in white

in original (semi-transparent)

150 meters(250g) each roll

Structure

- 7 branches wire covered with nylon
- []Stainless steel: diameter 0.5mm
- []Overall diameter:0.7mm
- []There is around 600 meters each kilograme

Material

- []Stainless steel: 304
- []non-magnetic
- []Plastic:PVC ,NOT flammable

Colour

- []The original color semi-transparent.
- []The other color is available.

Package

- [] 150 meters each roll.
 - [] 500 meters each roll.
 - [] 1000 meters each roll.
 - [] 5000 meters each roll.
- we can pack it according to the client's demand

Tensile strength

We tested the single wire in general weather,
the tensile strength is more than 35kgs (77lbs)

The wire is suitable to the following
meter seals and so on.
